Sci-fi and Fantasy

- *Welcome to Night Vale* – strange town in the U.S. with mysterious things happening. Cross between the *Twilight Zone*, *OUAT*, and *Twin Peaks*.
- The same creators of Night Vale created two other really good podcasts called: *Alice isn't Dead*, and *Within the Wires*. Maybe look both up and see if they interest you. They are mysterious.
- *Between the Stars* – 15-20 min long, recently started. Secret Government agency found something they are secretly keeping hidden. A little like Netflix's *Stranger Things*.
- *Sword and Laser* –fans of sci-fi and fantasy talk about sci-fi books and movies. Feels like hanging out with your own book club.
- *Uncanny* (Magazine extract) – features reading of newly released short stories in sci-fi and fantasy
- *Clarkesworld* (Magazine extract) – features reading of newly released short stories in sci-fi and fantasy
- *Escape Pod* – similar to the two above. Features short stories that are recently published.

Crime/Thriller

- *Serial* – mysterious murder of Asian girl in small U.S. community happening pre-internet, suspect is her Muslim ex-boyfriend who got arrested. The journalist reopens the case because there is a lot of doubt and mystery around it with not enough evidence. Season one is REALLY well done. Season two...meh
- *Criminal* – a podcast about crime. Not so much the 'if it bleeds, it leads' rather stories of people who've done wrong, been wronged, and/or got caught somewhere in the middle.
- *Limetown*: mysterious village disappears over night and it's spooky. I just started it.
- *The Black tapes*: just got recommended to me today, I heard it was really good.
